**Indoor BASS races - Landgraaf 2022**

Snowsport England were planning to organise the Indoor BASS races at Landgraaf during June 2022. However, due to the continued work restrictions introduced by the Netherlands government following the UK's departure from the EU, both coaches and volunteers are not permitted to work in the Netherlands unless they hold a Work Permit. To date, coaches who have applied for such a Work Permit have had their applications rejected.

As a result, we are sorry to announce that we are not able to run the 2022 Indoor BASS races at Landgraaf, which is very disappointing. We are investigating alternative arrangements and locations for the races in 2023.
