SKI PREP

Dear Racers,

- Gloop, puck (Zardoz), mr Sheen etc can be used at the top. Skis then carried up ramp where a marshal will place them just before the start gate. This is to ensure smooth running of batches.
- No ski prep on the start ramp will be allowed.
- Please be fully ready to race when asked.
- There is no return to top after third run so only prep you can take with you.
- There is a designated area at base of race lift for second pair skis if you wish.
- We hope this is clear and ensures consistency. Please comply with all requests from officials.

Happy racing,

Race team
