Please find attached start lists for the girls and boys races this weekend. If you anticipate any withdrawals or changes in your teams please respond to me directly if known in advance of bib issue, alternatively these can be changed at bib issue. Note that at this stage we can only accept replacement of team members and not changes to team running order.

Start Order
Please note that in order to help manage teams in their groups in the start area the start order for the races will be by team, with the first competitor on each run being No.1 for the girls and No.101 for the boys.

Both runs will run in bib number order.

Weather Forecast
Saturday is forecast (currently) to be very windy with 40mph northerly winds. In some forecast this also includes rain. As such, we recommend that all competitors and officials bring appropriate clothing. We will carry out an ongoing and dynamic risk assessment at all times concerning the safety of everyone involved with the event. At present we do not anticipate the weather will affect the race programme adversely, however the organising committee reserve the right to amend the programme, race format (reduce to a 1 run race) or cancel the event if the safety of anyone involved is compromised by the weather conditions.

Event Format
I have attached the original competition invite to remind team managers and competitors of the race regulations and format, and would like to draw your attention to the following,

The Championships is for teams of four bona fide pupils from one school competing over two runs of a slalom course. Schools are invited to enter Teams into this race at the invitation of their National Association, normally based on the results of national qualifying Races. The team time will be the aggregate of the three fastest individual times per run. The race will be run under FIS rules as amended for artificial slope racing. The Race Committee shall have the power to waive or vary Race and Entry conditions if, in their view, the situation warrants it. Whilst the fastest three times will count towards the team composite time on each run, the combined total of times from both runs will be used to calculate an individual's time.

Helmets/Ski Pole Tips Covered by Bungs/Protective Clothing
Helmets are mandatory for all competitors, as per the GB Competitive Skiing Regulations. All participants must wear ensure that their legs, arms and hands are covered at all times on the ski slope. **Ski pole tips must be protected with bungs of a minimum of 15mm diameter**.
